B-K Lighting & TEKA Illumination Donate $13,500 to the Intrepid Fallen Heroes Fund at the 12th Annual 9/11 Memorial Ceremony

In keeping with our pledge "We Will Never Forget", BK Lighting and TEKA Illumination with Star Finishes, Blue Dolphin Design and Engineering and Etendue paid tribute to victims of 9/11 and the brave men and women in uniform on Wednesday, September 11, 2013.

For Immediate Release - B-K Lighting and TEKA Illumination made a plea to all business associates, sales agents, vendors and employees to support the Intrepid Fallen Heroes Fund for one year and the results were astonishing.

We reached out to our business partners to support the The Intrepid Fallen Heroes Fund for 12 months. Vendors and employees made single donations. Many of our sales agents donated 1/2 penny of every dollar earned in commisions. CEO and Founder, Douglas W. Hagen agreed to match each contribution dollar for dollar. The results of our combined efforts totaled to $13,500.

President of the Intrepid Heroes Fund, David Winters accepts donation from B-K Lighting on the deck of the Intrepid Sea, Air and Space museum .

"We have a need in this country to support the men and women who have stepped onto the battle field and sacrificed their lives so we may enjoy the freedom this country provides." said Doug Hagen, C.E.O. and Founder of B-K Lighting and TEKA Illumination. "The Intrepid Fallen Heroes Fund clearly understands the path necessary to accommodate our injured troops best. That's why we

B-K Lighting designed and manufactured custom fixtures for Zuccotti Liberty Park in New York City where the 9/11 ceremonies are hald annually.

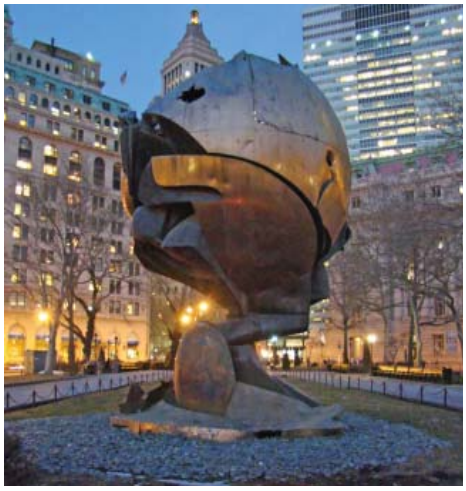

support the efforts of this fund."

Faced with tighter budgets after the Iraq War but still in charge of treating tens of thousands of injured troops, the military is getting a hand from a private foundation that is building medical centers specializing in the signature physical and psychological injuries of Iraq and Afghanistan.

The Intrepid Fallen Heroes Fund is raising millions of dollars to build clinics on military bases. The clinics will form a network aimed at treating and researching traumatic brain injury and post-traumatic stress, two areas the military has focused on since roadside bombs became a common weapon in Iraq and Afghanistan.

Army officials say the foundation, which grew out of the philanthropic efforts of the late New York real estate businessman Zachary Fisher, has been highly effective because it can sidestep government bureaucracy on construction projects and provide a financial boost for medical advances that are desperately needed for injured soldiers, Marines, airmen and sailors.

Since 9/11, the charity has built the nation's top specialized hospitals for troops injured in Iraq and Afghanistan: a brain injury center of excellence in Bethesda, Md., and an amputee and burn rehabilitation center in San Antonio, Texas.

"The Sphere" by German sculptor Fritz Koenig, stood between the World Trade Center Twin Towers until the attack. After being recovered from the rubble it was relocated to Battery Park where it has become a major tourist attraction. B-K Lighting's Alps Series fixtures illuminate the sphere at night.

Now the fund is widening its scope beyond the two hospitals with a plan to build between seven and nine clinics at the nation's largest military installations, with a hub-and-spoke model to channel the latest patient data up to research hubs and push down treatment models to the doctors and therapists.

Clinic groundbreakings have already occurred. More clinics are under negotiations. For more information visit www.fallenheroesfund.org

Please join us as we remember the fallen, the fallen heroes, the survivors and brave men and women in uniform who fight for our freedom.

ABOUT B-K LIGHTING

Since 1984, B-K Lighting has provided the highest quality, most innovative and fairly priced outdoor architectural lighting fixtures available in the industry. B-K Lighting manufactures path lights, sign lights, area lights, flood lights, recessed building mounted and in-grade lighting fixtures. Our custom lighting designs and solid-state lighting products are installed in high-end residential, corporate office and landmark applications around the world.

ABOUT TEKA ILLUMINATION

Since 1993, TEKA Illumination has manufactured sustainable indoor and outdoor luminaires. All TEKA Illumination lighting products are manufactured from copper, brass and bronze - three of the oldest natural and man-made materials. These materials are extremely resistant to environmental corrosion and physical abuse attributing to their sustainability. Enduring metals. Elemental designs. New technologies. These are the inspirations for TEKA Illumination landscape lighting and indoor lighting products.

QUALITY, SERVICE, INNOVATION, and VALUE all add up to make B-K Lighting and TEKA Illumination the number one choices in outdoor architectural lighting. B-K Lighting has a long history of supporting 'green' manufacturing. As members of the USGBC (United States Green Building Council) and IDA (International Dark Sky Association) they have led their industry in providing earth-friendly designs and manufacturing concepts.

For more information about B-K Lighting and TEKA Illumination, visit our websites at www.bklighting.com and www.tekaillumination.com. Monday-Friday 7:00 a.m. to 5:00 p.m. PST at 559-438-5800 or FAX at 559-438-5900. Located at 40429 Brickyard Drive, Madera, CA 93636

ABOUT STAR FINISHES

Star Finishes was founded in 2000 and provides "Class A" powder coating, environmentally friendly conversion coating, blast and chemical cleaning and stripping services with complete specification document control and quality assurance. Star Finishes utilizes STARGUARD® an environmentally safe, hazard free, non-toxic aluminum conversion process that is completely compliant with the American Society for Testing and Materials' specifications for non-hexavalent chromium conversion coatings. This ecologically safe process cleans and conditions substrates providing a sound base for high quality finishing with tenacious adhesion and long term corrosive resistance. At Star Finishes, "We finish what you start!"
